

AMAL AL RAISI

Brand Identity Framework 2025-2035

Phase 1: Brand Foundation & Strategic Positioning

SECTION 1: BRAND ESSENCE

1.1 Brand Origin Story

The Beginning: In 2006, Amal Al Raisi couldn't find her perfect wedding dress. Instead of settling, she designed her own. That single act of creative defiance became the seed of an Omani fashion house that would spend the next two decades proving that heritage and modernity aren't opposites, they're partners.

The Journey: From a small atelier in Muscat to Vogue Arabia, Harper's Bazaar, and international fashion stages, Amal Al Raisi built something rare: a brand that didn't minimize its Omani identity to appeal to global markets, but made that identity the very reason for its relevance.

The Legacy: Twenty years later, when someone says "Omani design," they don't think "traditional costume." They think innovation, luxury, global relevance. That shift is Amal Al Raisi's work.

1.2 Brand Purpose

Why We Exist (Beyond Profit)

Core Purpose Statement: To elevate Omani design on the global stage while preserving cultural heritage, empowering women to carry home with them through what they wear.

The Problem We Solve: Women who want to honor their cultural identity shouldn't have to choose between heritage and contemporary elegance. Amal Al Raisi bridges this gap, creating pieces that feel rooted in tradition yet entirely modern.

What Makes Us Irreplaceable:

- Only luxury Omani fashion house with 20-year proven heritage
 - Designer-founder still actively creating and culturally connected
 - Every piece tells an Omani story without explanation or translation
 - Craftsmanship that honors artisan traditions while meeting international standards
-

1.3 Vision, Mission & Values

Vision Statement

"To be the definitive voice of Omani luxury fashion globally, the house that proved regional heritage is not a limitation but a superpower. To position Muscat alongside Paris, Milan, and New York as a recognized fashion capital, building a multi-generational legacy where Omani women, and women who love Omani design, find their forever pieces."

Mission Statement

"We create luxury modest wear that honors Omani heritage through contemporary design, exceptional craftsmanship, and storytelling that makes women feel they're not just wearing clothes, they're wearing identity."

Mission Pillars:

1. **Design Excellence:** Every piece meets international luxury standards
 2. **Cultural Storytelling:** Every collection tells an Omani story
 3. **Women Empowerment:** Every garment designed for the woman's confidence, not just her closet
 4. **Artisan Preservation:** Every technique honors those who came before
-

Core Values

Value 1: ROOTED MODERNITY We don't choose between tradition and innovation. We prove they're the same thing expressed differently. Heritage is our foundation, not our ceiling.

Value 2: QUIET STRENGTH Luxury doesn't shout. Confidence doesn't need validation. Our pieces speak through quality, not volume. The woman who wears Amal Al Raisi commands attention without demanding it.

Value 3: INTENTIONAL CRAFT Every stitch carries purpose. We reject fast fashion's disposability. Our pieces are made to be kept, worn, and eventually passed down.

Value 4: AUTHENTIC REPRESENTATION We tell Omani stories as they are, not exoticized for foreign consumption, not minimized for easy acceptance. Proudly, unapologetically, beautifully Omani.

Value 5: WOMEN ELEVATING WOMEN From founder to artisans to customers, this is a house built by women, for women. We succeed when the women in our ecosystem succeed.

SECTION 1: BRAND VOICE

1.1 Voice Philosophy

The Amal Al Raisi voice is the verbal expression of quiet confidence. It speaks the way the brand dresses women: with intention, warmth, and an elegance that never needs to announce itself. Every word should feel like it belongs in both a luxury magazine and a heartfelt letter.

Voice Principles:

 - Honor heritage without explaining it
 - Be poetic without being pretentious
 - Invite, never push
-

1.2 Voice Spectrum

Where We Sit on Key Dimensions

Formal ←, , ●, , , → **Casual** Position: Slightly formal. Elegant and refined, but never stiff or corporate. Think "dinner party host" not "board meeting."

Serious ←, , , ●, , , → **Playful** Position: Center-serious. Grounded and meaningful, with moments of warmth and light. Never flippant, but not heavy either.

Reserved ←, , ●, , , → **Enthusiastic** Position: Quietly confident. Enthusiasm shows through passion for craft and heritage, not exclamation points.

Informative ←, , , ●, , → **Inspirational** Position: Center-inspirational. We educate through story, inspire through substance. Facts wrapped in meaning.

Direct ←, , , ●, , → **Poetic** Position: Poetically grounded. Beautiful language anchored in real meaning. Never vague, never purely functional.

1.3 Voice Characteristics

The Five Voice Traits

1. QUIETLY CONFIDENT We don't boast. We don't use superlatives constantly. We state what we are and let it resonate. Confidence comes from substance, not volume.

Instead of: "The BEST luxury fashion in Oman!" *We say:* "Twenty years of dressing women who know their worth."

2. CULTURALLY ROOTED We speak of Oman with pride and familiarity, not as something exotic to explain, but as home. Heritage is woven naturally into our words, never performed.

Instead of: "Inspired by the ancient traditions of Oman..." *We say:* "The same hues our grandmothers knew. The same quiet elegance."

3. WARMLY ELEGANT Sophisticated but never cold. We're the brand that makes you feel welcomed into something special, not excluded from it.

Instead of: "An exclusive collection for discerning clients." *We say:* "For the woman who chooses with intention."

4. STORYTELLING-FIRST Every piece has a story. Every collection has meaning. We don't describe products, we share the narrative behind them.

Instead of: "New kaftan available in three colors." *We say:* "This silhouette was born in the quiet hours, when sketches become stories."

5. INTENTIONALLY UNHURRIED We don't chase trends or create urgency. We speak with the patience of craft, the steadiness of heritage. Our rhythm is considered, not frantic.

Instead of: "Limited time! Order now!" *We say:* "Some things are worth waiting for."

1.4 Voice Personality: If the Brand Could Speak

She would never say:

SECTION 2: TONE VARIATIONS

2.1 Understanding Tone

Voice is consistent, it's who we are. Tone adapts, it's how we express ourselves in different contexts. The Amal Al Raisi voice remains quietly confident everywhere, but the tone shifts based on platform, audience, and purpose.

2.2 Tone by Context

Campaign/Brand Storytelling

Tone: Poetic, cinematic, aspirational **Energy:** Elevated, intentional **Language:** Longer sentences, descriptive, emotive **Purpose:** Inspire and move

Example: "For twenty years, we've worn Oman. Not just in garments, but in identity. In the way we carry ourselves. In the quiet confidence of knowing where we come from."

Product Descriptions

Tone: Informative yet evocative **Energy:** Calm, detailed **Language:** Clear but beautiful, technical but accessible **Purpose:** Inform while maintaining romance

Example: "Flowing tulle dress with a round neck and puff sleeves. Exquisite hand embellishment graces the sleeves, front, and back, each detail placed by artisans who've perfected their craft. A piece made to move with you."

Social Media (Feed)

Tone: Warm, conversational, story-driven **Energy:** Engaging but unhurried **Language:** Shorter sentences, but still refined **Purpose:** Connect and invite dialogue

Example: "Some colors aren't chosen. They're remembered. Blue Haze is the morning mist over the mountains. The quiet before the day begins. What color holds your memories?"

Social Media (Stories)

Tone: Intimate, behind-the-scenes, real **Energy:** Casual but still elegant **Language:** Direct, personal, in-the-moment **Purpose:** Build connection and authenticity

Example: "In the atelier this morning. This embroidery has taken three weeks. Worth every hour. Swipe to see the detail up close."

Broadcast Channel / Inner Circle

Tone: Personal, exclusive, vulnerable **Energy:** Intimate, like a voice note to a friend **Language:** First person, conversational, honest **Purpose:** Deepen relationship with core community

Example: "Can I share something? I've been working on this piece for months and I'm still not sure if it's ready. Sometimes the work that matters most takes the longest to feel complete. What do you think, trust the process or keep refining?"

Customer Service

Tone: Warm, patient, solution-focused **Energy:** Calm, reassuring **Language:** Clear, helpful, personal **Purpose:** Resolve while maintaining brand experience

Example: "Thank you for reaching out to us. I understand how important it is that your piece arrives perfectly for your occasion. Let me personally look into this and get back to you within the hour."

Press/Formal Communications

Tone: Professional, authoritative, refined **Energy:** Measured, prestigious **Language:** Formal but not stiff, accomplished but not boastful **Purpose:** Establish credibility and position

Example: "Amal Al Raisi, Oman's leading luxury fashion house, presents Echoes of Time. Shot on location at Bahla Fort, a UNESCO World Heritage Site, the collection marks twenty years of the brand's commitment to elevating Omani design on the global stage."

SECTION 3: WRITING STYLE GUIDELINES

3.1 Sentence Structure

Preferred:

- Vary length for rhythm: short sentences for impact, longer for flow
- Lead with the interesting part, not preamble
- End paragraphs with the strongest thought
- Use fragments intentionally for poetic effect

Example of Rhythm: "Twenty years. That's how long we've been telling this story. It started in a small atelier in Muscat, with a woman who couldn't find her wedding dress. So she made her own. And then she made another. And another. Each piece carrying a piece of Oman with it."

Avoid:

- All sentences the same length
- Starting every sentence with "We" or "Our"
- Overly complex sentence structures
- Run-on sentences that lose the reader

3.2 Punctuation Personality

Ellipses (...): Use sparingly for trailing thoughts or transitions *"Some things take time to become what they're meant to be..."*

Periods: End statements with confidence. Don't be afraid of short sentences. *"This is who we are. This is where we come from."*

Exclamation points: Rarely. Maximum one per piece of content. Reserve for genuine moments of celebration. *Avoid:* "New collection out now! Shop today! You'll love it!" *Instead:* "The Echoes of Time collection is here."

Question marks: Use thoughtfully to invite reflection or dialogue *"What does home mean to you?"*

3.3 Capitalization

Headlines/Titles: UPPERCASE in Futura Light, or Title Case

Body text: Sentence case, always

Brand name: "Amal Al Raisi" (not "AMAL AL RAISI" in body text)

Collection names: Title Case with quotes ("Echoes of Time")

Values/Concepts: Lowercase unless starting sentence (heritage, craft, elegance, not Heritage, Craft, Elegance)

3.4 Numbers & Dates

- Spell out one through ten: "three weeks," "seven colors"
 - Use numerals for 11+: "34 looks," "20 years"
 - Dates: "December 2025" or "12 December 2025"
 - Prices: Include currency symbol, no decimals for whole numbers (OMR 250)
 - Years of heritage: Always "20 years" not "twenty years" (impact of numeral)
-

3.5 Emoji Usage

Rule: Minimal and intentional. Emojis should feel like punctuation, not decoration.

Approved Emojis (use sparingly):

- 🤍 White heart (signature, warmth without loudness)
- 🕊 Dove (peace, elegance, movement)
- ✨ Sparkles (craft, special moments, very sparingly)

Never Use:

- 🔥 Fire
- 💯 Hundred
- 😍 Heart eyes
- 🙌 Raised hands
- Multiple emojis in sequence
- Emojis as substitutes for words

Placement: End of caption or in isolation. Never mid-sentence.

Example: "This is what twenty years looks like. 🤍"

3.6 Hashtag Style

Format: #TitleCase for readability **Examples:** #AmalAIRaisi #EchoesOfTime #WearingOman

Strategy:

- Brand hashtag always: #AmalAIRaisi
- Campaign hashtag when relevant: #EchoesOfTime #20YearsOfWearingOman
- 3-5 discovery hashtags maximum
- Never hashtag-stuff (15+ hashtags)

Core Hashtags:

- #AmalAIRaisi (always)
 - #WearingOman (brand narrative)
 - #OmaniDesign (discovery)
 - #ModestFashion (category)
 - #LuxuryModestWear (positioning)

Twenty years of design, and I'm still learning from her.

HERITAGE OVER TRENDS Stay rooted in Omani identity; don't chase every trend.

COMMUNITY OVER FOLLOWERS Quality of connection matters more than quantity of subscribers.

GENEROSITY OVER GATEKEEPING Share insights, wisdom, lessons, lift others up.

5.3 Interview Talking Points

On the Brand Origin

"I started this brand because I couldn't find my wedding dress. I knew exactly what I wanted, something that felt like home, like Oman, but modern. It didn't exist. So I made it. Nearly twenty years later, I'm still making it."

On Heritage

"Heritage isn't a limitation, it's innovation. When you're rooted in something real, you don't have to chase trends. The desert, the mountains, the way light falls in Muscat, these inspire us every season."

On Modest Fashion

"I don't design 'modest fashion', I design beautiful fashion that happens to be modest. The modesty is natural, not a restriction. It's how we dress here. It's elegant by default."

On the Future

"Our vision is for Muscat to be mentioned alongside Paris and Milan as a fashion capital. It will take time. But we're building something that lasts."

On Women

"This brand was built by a woman, for women. Every piece is designed to make women feel powerful without having to prove anything. Quiet strength, worn."
